25 YEARS OF EXPERIENCE IN PRINTING INKS CREATION

ABOUT OUR COMPANY

CJSC “Respecta” is one of the leading manufacturers of flexographic and gravure printing inks. Innovative technologies, up-to-date equipment and materials, development of projects with varying complexity level, optimal delivery time coupled with consistent quality provide us with high reputation and trust of our customers.

2001

The first printing inks manufacturing company was created in Belarus. A professional team was formed.

2007

The project was further developed under new trade name **Respecta**.

2009

Entry into Russian Federation market. Building up contacts, extension of dealer system.

2010

Representation office in Russian Federation was set up to provide our clients with technological support and to increase sales volumes of printing inks.

2016

Entry into new market regions: Azerbaijan, Kazakhstan, Ukraine.

2019

Arriving at sales volume of **more than 5000 tons** of different types of inks per year.

2024

Arriving at sales volume of **more than 6 500 tons** of different types of inks per year.

2025

Technical reequipment of the company, which provided the increase in production facilities and the optimization of production processes.

OUR OWN MANUFACTURE

Multistage production of printing inks is fulfilled with specialized equipment using the full cycle processing of high quality raw materials made by world leaders in printing inks raw products industry.

INNOVATIONS AND DEVELOPMENTS

Our technologists and specialists are regular participants of international exhibitions, research and practice seminars, presentations, which allows us to maintain high level of our production and move forward in new developments.

MASTERBATCHES AND CONSUMABLE MATERIALS

MASTERBATCHES

- White
- Black
- Colored
- Additives on the base of calcium carbonate
- Modifying additives

CONSUMABLE MATERIALS

- Diluents
- Auxiliary materials

PRINTING INKS AND VARNISHES

SOLVENT BASED

- Multi purpose
- For surface printing
- For lamination
- For printing with subsequent pasteurization or sterilization
- For printing on milk films
- For printing on PVC films
- For printing on woven polypropylene
- Lightfast
- Pigment pastes and varnishes
- Additives
- Primer and finishing varnishes

WATER BASED

- For printing on absorbent materials
- For printing on low-absorbent materials
- For printing on non-absorbent materials
- Primer and finishing varnishes.
